100 Übungsfiguren für den MedAT-Z

Jede Figur liegt links der fett gedruckten Spiegelachse auf einem 5-mm-Raster. Zeichne ihr Spiegelbild freihändig auf die rechte Seite – ohne Lineal und ohne Hilfslinien.

So übst du: Bestimme für jeden Eckpunkt Zeile und Abstand zur Achse und übertrage ihn auf die andere Seite. Die kleinen Punkte auf der rechten Seite sind Anhaltspunkte – prüfe zuerst, ob deine Eckpunkte dort landen. Erst danach verbindest du die Punkte in ruhigen Zügen.

Kontrolle: Falte das Blatt gedanklich an der Achse – beide Figuren müssen übereinanderliegen. Weicht deine Zeichnung an einer Stelle mehr als etwa 5 mm ab, zählt die Figur als nicht bestanden. Die verbindlichen Regeln für dein Testjahr stehen in der VMC-Anleitung.
